Certificate of part quality

in accordance with paras 19 and 20 of the Supplementary Guidelines on Vertical Restraints in Agreements for the Sale and Repair of Motor Vehicles and for the Distribution of Spare Parts for Motor Vehicles

Our products meet the quality requirements placed on automotive spare parts, including

the quality standards for parts used for maintenance and repair work in authorised repair shops.

Our original spare parts are of the same quality as the components used for the assembly of the

motor vehicle in question and are manufactured according to the specifications and production

standards of the vehicle manufacturer; we distribute high-quality spare parts of matching quality

as referred to in recital 20 of the guidelines

>This certificate 461 [EEC] supersedes the previous certificate pursuant to MVER 1400/2002 which

expired May 31st 2010 <

Certificate of part quality (effective 1.6.2010)
